

In PSHE we have learnt about staying safe and some basic first aid. We particularly enjoyed having a visitor from the fire service come in to talk to us!

Vikings

Year 5

This Term Year 5 have explored the Vikings. We have plotted on a map the locations they have travelled to and from. We explored how they travelled and wrote a set of instructions on how to build your own Viking Longship and we also learnt about the Viking Gods.

In Maths we have gained greater understanding of multiplication and division and have just begun to explore fractions.
