

<u>Year 3</u>

Spring 1 – Dinosaurs and Fossils

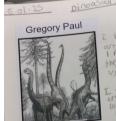

Year 3 have been learning all about dinosaurs, what characteristics each had and how they became instinct. They have also been looking at the fossilization of creature from the past and how these tell us about how things lived in the past. They have been able to put their design skills to good use when building their own dinosaur

earthquakes

Feburary insormation text Marrelling Watersalls Have you over heard as the thandering Victoria Falls? Have you ever wondered how they are sormed? Watersals are not Simply beautisul seatures, they are minportant part os nature. A watersal is part of a river of other bo water that takes a drop over a rocky ledge or a Read on to Sind out, more insormation about these povers cascading

I Like that the artist had used I pencil to make the dinosaut look ving real. I dislike that the artist has not used artist has not used and colour to the

I Like that the artist shadings has used the penul shadings are dark and want to make the Dinosaurs.

I Liter this Picture because it shows some nice dinosnurs it shows them that it and it shows them that it looks like from the past.
