

The children learned about the rise and fall of the Shang Dynasty. They explored primary and secondary sources, discussing artefacts and areological evidence. They enhanced their ICT skills to present their findings.

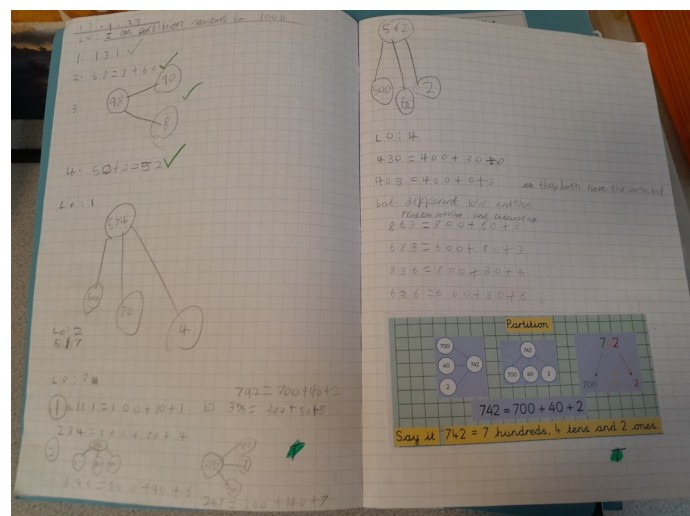

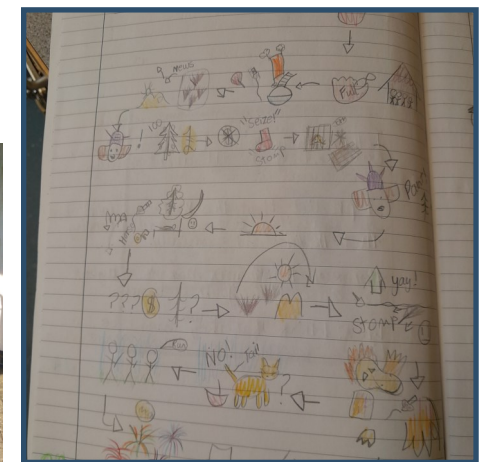

In maths, the children have learned about place value and practiced their addition and subtraction. They have used a variety resources to improve their understanding, such as dienes, place value charts and number lines.

They have enjoyed using part whole methods to explore the composition of number.

Year 4 Autumn 2

The children appeared very eager to discover the new reading books collections and are excited to delve into some exciting new books.

The Children have been learning about diversity and inclusion and have enjoyed their PHSE lessons. This has helped them to identify what characteristics they have and skills, attributes they would like to improve upon,. The children have understood the importance of being kind and respectful.

During English, the children have improved their vocabulary and ability to write character descriptions and settings. They have also written and information texts on our topic. They have used story maps and colourful semantics to help them.
