

This term, in Art, the children have been learning all about the artist Pablo Picasso. The children have produced their own portraits in the style of the artist. The children used cardboard and the primary colour paints.

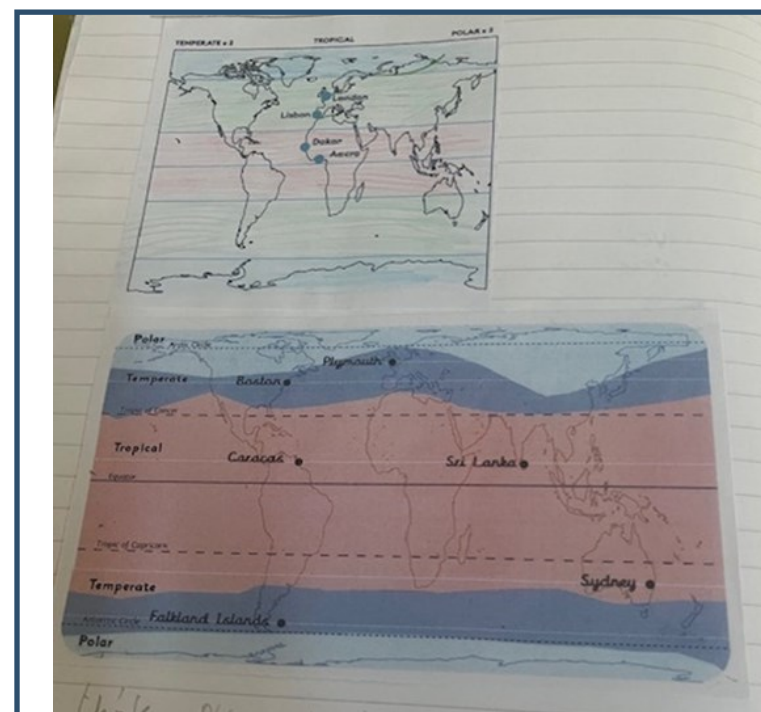

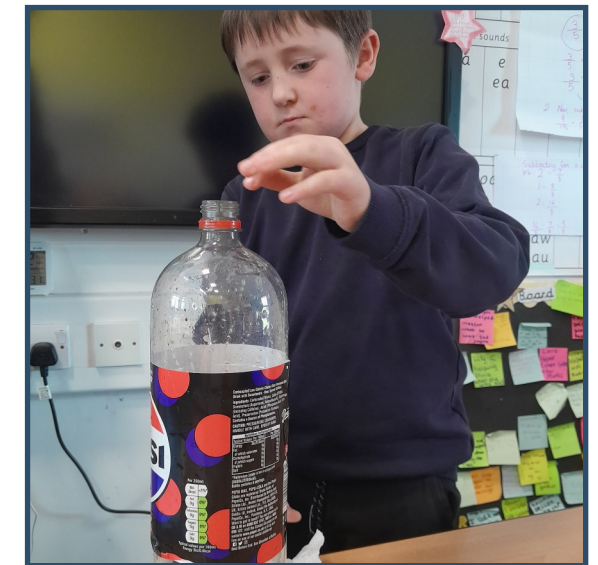

In science, children have been learning the properties of different materials. The children have participated in an array of materials to test if materials can be dissolved and separated.

Year 4/5

Spring 2 Celebration of Learning

This term our Topic has been Climate Change and Our Changing world! We have explored how greenhouse gases have impacted our planet and some of the sustainable ways we can work towards saving planet Earth.

Solar energy	Energy from the sun. Collected using solar panels.	
Wind energy	Wind turbines are used to convert wind energy to electricity.	
Hydropower energy	Hydropower is energy that comes from moving water.	
Geothermal energy	Geothermal energy is thermal energy that is stored in earth.	
Biomass energy	Biomass energy can be obtained by burning natural waste materials.	
Non-renewable energy	Coal is mined from underground and is found deep.
