

We have studied biomes around the world and explored the different conditions in these places.

We were able to study the animals and vegetation found in the different biomes.

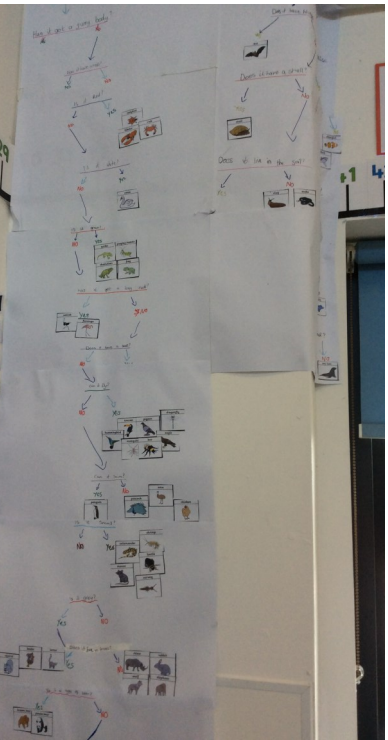

# Year 6 Learning Celebration— Spring 2 - World Biomes

Our topic this term was Biomes of the World. We enjoyed exploring the different biomes around the world and how making comparisons between these, while considering how they differ from each other.

This Term we have also had Science day where we have been able to participate in other experiments including looking at particles and jelly.

In science, we learnt how to classify plants and animals.
